

## BUDGET WORKSHEET

*Ohana Steel Buildings LLC does not make any recommendations for the following approximate budget worksheet. The approximate prices below are designed to aid the customers in budget and are simply provided for convenience in our customer planning. The quotes, reliability, work ethic nor licensing encompassing the contractors for the prices below are NOT endorsed by Ohana Steel Buildings, LLC.*

*The customer is urged to use the following budget worksheet that their own risk and is simply informational.*

<b>Approximate Square Footage of building:</b>		_____
	<b>Approximate Fixed Cost</b>	<b>Approximate Cost Per Sq ft</b>
Excavation		\$3-10 _____
Tie in to sewer or septic:	\$1,000	_____
Concrete Slabwork		\$14 _____
Local Engineer Stamp	\$500	_____
Building Permit Costs	\$500	_____
Building Material Cost	(Insert Ohana Steel Buildings Quote Here)	_____
Building Erection:		\$10-12 _____
Building Electrical	Must Independently Quote	_____
Building Water	Must Independently Quote	_____
<b>Approximate Total Cost of the Building</b>		_____

*It is highly recommended that the customer build as big a building as permitted as the other costs remain roughly fixed. Adding a second story will only add material costs with the same building footprint.*
